

## SAMPLE PP & DT STORY

Rahul is a college student . While visiting his home town in the hills, he observed that the bridge connecting the town to his village was too old and unsafe, due the which the villagers were facing lot of hardship. The bridge needed urgent repair and renovation. He discussed the issue with his local friends and villagers and formed a team. Rahul and his team prepared detailed a report over the whole situation. They included how the bridge could be easily repaired with local materials and the money and effort required for the work . Rahul approached the Sarpanch and District Collector with the project and convinced them. Rahul and his team immediately started working on the bridge repair project . He also sought advice of nearby villages and colonies who were affected . He and his team of friends and villagers worked hard over three months to repair the bridge. Rahul ensured that locally available materials were used and work was done efficiently. Soon with the hard work and efforts of Rahul and his team the bridge was repaired and the tests on the bridge were successful. The local villagers were happy that they could now easily travel safely to the town from their village for work and purchases.
